Trails for Hikers and Horses

Hiking trails lead to the beach, viewpoints overlooking the ocean, fishing spots along the Sixes River and even to a lighthouse. On horseback, follow a seven-mile trail or enjoy a 150-acre open riding area across the road from the horse camp. Horses are allowed on designated trails only.

Cape Blanco Lighthouse

The oldest standing lighthouse on the Oregon coast towers 245 feet above the ocean. It was commissioned in 1870 to aid shipping generated by the gold mining and the lumber industry. Tours are offered April through October, call 541-332-2207 for current schedules and information.

The Historic Hughes House

Constructed in 1898 for a pioneer dairy farmer, the Hughes House is an ornate, two-story, 11-room ranch home. The 3,000-square-foot home, constructed of old-growth Port Orford Cedar at a cost of \$3,800, is a fine example of late 19th century architecture. It is listed on the National Register of Historic Places. Tours are offered April through October, call 541-332-0248 for current schedules and information.

The remnants of a cemetery and former church site, "Mary, Star of the Sea," lie between the campground and day-use area.

A History of Gold

The streaks of black sand in Cape Blanco beaches indicate the presence of gold. From the mid-1800s through the 1940s, mining operations were conducted on the south beach. The small pond at the south beach parking lot provided water for the sluices.
